

# ATC **INFRA4400** Bluetooth Infrared Heating Controller c/w IR Remote

5 colour output Indicator

Handheld IR Remote

The ATC INFRA4400 Bluetooth heating control allows 0-100% control of any radiant heater or heaters up to 4.4kW from an easy to use app available from your app store.

The app features a delay off timer along with multiple zone control when paired with more than 1 controller.

In cases where Bluetooth is not used the INFRA4400 comes complete with a separate IR handset providing 5 step control.
